Independent Auditor's Report

To the Honorable Chairman and
Members of the County Board
Sangamon County, Illinois

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Sangamon County, Illinois (County), as of and for the year ended November 30, 2007, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Sangamon County, Illinois' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

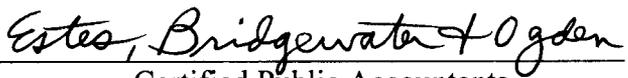

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Sangamon County, Illinois as of November 30, 2007, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 13, Sangamon County, Illinois has expended certain federal grant funds in a manner that may have violated certain of the restrictive provisions of the related grants. The possible outcome of these matters, which have been reported to appropriate officials, is uncertain at this time. Accordingly, no provision for any liability has been made in the financial statements for possible federal claims for refunds of those grant monies.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 18, 2008 on our consideration of Sangamon County, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Illinois Municipal Retirement Fund Schedules of Funding Progress and budgetary comparison information on pages 29 through 33 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it. Sangamon County, Illinois has not presented the management's discussion and analysis as required by accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Sangamon County, Illinois' basic financial statements. The combining and individual nonmajor fund financial statements and schedule of appropriations listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For The Year Ended November 30, 2007**

Net change in fund balances – total governmental funds (Statement 4)	\$4,510,525
The change in net assets reported for governmental activities in the Statement of Activities is different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay and infrastructure additions of \$1,145,705 are less than depreciation (\$4,766,260) in the current period	
	(3,620,554)
Loss on disposal of fixed assets	(48,943)
Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the Statement of Net Assets, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Assets.	
Debt issued:	
Leases payable	(\$ 583,432)
Repayments:	
Capital lease obligations	942,648
Mortgage loan	<u>25,375</u>
Net adjustment	384,591
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available.	
Compensated absences	(164,425)
Change in net assets of governmental activities (Statement 2).....	<u>\$1,061,194</u>

Sangamon County, Illinois
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
For The Year Ended November 30, 2007

Sangamon County (County) is one of 102 counties organized in the State of Illinois. As a local governmental unit, the County is tax-exempt. The County provides a broad range of services to citizens, including but not limited to general government, public safety and corrections, transportation, and public health and welfare. Revenues are substantially generated as a result of taxes assessed and allocated to Sangamon County (examples would be property taxes, sales taxes, income taxes and motor fuel taxes) and charges for services performed for constituents of the County. Sangamon County revenues are therefore primarily dependent on the economy within its territorial boundaries. Industry within the County is primarily agriculture, manufacturing, and retail. Additionally, there are large nonprofit employers, including hospitals, state government, colleges, and other local governments within the County. The County's fiscal year ends on November 30.

A summary of the County's significant accounting policies follows.

USE OF ESTIMATES

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the basic financial statements and the reported amounts of revenues, expenses, gains, losses, and other changes in fund equity during the reporting period. Actual results could differ from these estimates.

PRINCIPLES USED TO DETERMINE REPORTING ENTITY

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The County's reporting entity includes the County's governing board and its component units for which the County is financially accountable under the definition described above. The discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County.

Discretely Presented Component Units

The Springfield-Sangamon County Regional Planning Commission (the "Commission") serves as the joint planning body for the City of Springfield and the County. The Commission also works with other public and semi-public agencies throughout the area to promote orderly growth and redevelopment. The Commission has a 17 member governing board, including representatives from the Sangamon County Board, Springfield City Council, special units of government, and six appointed citizens from the City and County. The Executive Board of the Commission appoints the director of the staff. The Commission, through its professional staff, provides overall planning services related to land use, housing, recreation, transportation, economics, environment, and special projects. The agency also maintains existing base maps and a zoning map for the County. The Commission Director is also the Plats Officer for Sangamon County. Divisions of land must be reviewed by the Plats Officer to ensure compliance with the State Plat Act and local zoning and subdivision regulations. Copies of the Commission's financial statements may be obtained from the following address:

Discretely Presented Component Units (Continued)

Although the majority of the Commission's revenue is derived from sources outside the County, the County Board, as required by statute, approves its budget and expenditures. Due to the significant amount of fiscal responsibility assumed by the County, the Commission has been determined to be a component unit of the County. All transactions of the Commission are recorded as a discretely presented component unit of the County.

The Emergency Telephone System Board (ETSB) was established by referendum to provide emergency telephone service funded by a telephone surcharge. The ETSB consists of seven members appointed by the Chairmen of the Sangamon County Board with advice and consent of the County Board. The Chairman of the Sangamon County Board shall designate a chairman of the ETSB. The members of ETSB are appointed for a term of two years. The ETSB is considered a discretely presented component unit of the County. There are no separately issued financial statements of ETSB.

The Land of Lincoln Consortium (the "Consortium"), which is a prime grantee under the Workforce Investment Act (WIA), is funded by the United States Department of Labor and the Illinois Department of Commerce and Economic Opportunity.

Under the terms of the agreement, the County serves as the administrative entity and planning agency. Each county's chief elected official serves as a representative on the Consortium Policy Board. The functions of this Board are to establish programmatic and administrative policies and procedures, approve the administrative budget, hire an administrator, and approve and modify the job training plan. The administrator has the authority to hire additional administrative staff with the input of the County coordinators.

The Consortium was established by an agreement with Cass, Christian, Logan, and Menard counties. Since the County is noted on the WIA grant agreement as the primary grantee and since the County may exercise its control over the Consortium, the Consortium has been determined to be a component unit of the County. There are no separately issued financial statements of the Consortium.

The revenues and expenditures of shared funds as described in the following paragraphs are not included in the financial statements. The assets and liabilities are included as agency funds.

Joint Venture

The Sangamon County Sheriff's Office has entered into a joint interagency agreement with the Illinois State Police, Springfield Federal Bureau of Investigations, the Counties of Christian and Mason, and the police departments of the Cities of Springfield, Jacksonville, Auburn, Havana, Jerome, Leland Grove, Lincoln, Pana, Rochester, and Taylorville. The agreement created the Central Illinois Enforcement Group, which is a multi-agency narcotics enforcement group. The Central Illinois Enforcement Group is funded by a federal grant from the Department of Justice, which is passed through the Illinois Criminal Justice Authority.

Under the terms of the agreement, the County is designated as the implementing agency for the grant. The unexpended grant funds to date are accounted for in an agency fund.

Jointly Governed Organizations

Illinois Compiled Statutes provide for the creation of a public building commission to acquire or construct facilities for the participating governments and to issue bonded debt to finance the acquisition or construction of the facilities. The City of Springfield organized the Springfield Public Building Commission (SPBC). The County, the Springfield Public School District, the Springfield Sanitary District, the Springfield Park District, and the Springfield Airport Authority joined the City in the forming of the Commission. None of the participating governments have unilateral control over the financial or operating policies of the SPBC. The participants do not have an on-going financial responsibility to the SPBC; some of the participating governments have a financial responsibility, in the form of lease payments, to the SPBC. After the leases expire, the participant is not required to subsidize SPBC operations or otherwise make payments to the SPBC.

Pursuant to Article VII, Section 10 of the 1970 Constitution of the State of Illinois, the Sangamon County Central Dispatch System (SCCDS) is a public agency established jointly by the County of Sangamon and the City of Springfield for the purpose of providing the equipment, services, and other items necessary and appropriate for the establishment, operation, and maintenance of a joint dispatch system to provide such services on a contract basis to other governmental units within Sangamon County and to provide a forum for discussion, study, development, and implementation of recommendations regarding public safety communications within Sangamon County and the City of Springfield. None of the participants have unilateral control over the financial or operating policies of the SCCDS. Each participating agency is responsible at the beginning of each quarter for its share of SCCDS employee costs.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from its legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *County Health Fund* accounts for the resources of the County Health Department. The basic purpose of the Department is the protection and improvement of the public health in the County.

The *Pension Code Fund* accounts for the County's contribution required under the Illinois Pension Code.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
For The Year Ended November 30, 2007

BUDGETS AND BUDGETARY ACCOUNTING

Formal budgetary accounting is employed as a management control for most funds of the County. Annual operating budgets are adopted each fiscal year through passage of an annual budget ordinance and amended as required for the General Funds and the Special Revenue Funds.

Budgets are prepared on the modified accrual basis of accounting.

Alternative control over spending activities of these funds is achieved through the applicable grant or allotment application process, as well as monitoring efforts of appropriate committees of the Board of Sangamon County.

The County Board is authorized to transfer budgeted amounts between line items. Unexpended appropriations lapse at the end of each fiscal year.

Supplementary budgeting appropriations were necessary during the fiscal year ended November 30, 2007.

CASH AND SHORT-TERM INVESTMENTS

The County pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash account is available to meet current operating requirements. The County has adopted a policy defining short-term investments as savings accounts, demand deposit accounts, and certificates of deposit (including restricted assets) with an original maturity of one year or less when purchased.

INVESTMENTS

Per Chapter 30, Act 235, Section 2 of the Illinois Compiled Statutes, Sangamon County, Illinois may invest any public funds (1) in bonds, notes, certificates of indebtedness, treasury bills, or other securities issued, which are guaranteed by the full faith and credit of the United States of America as to principal and interest, or (2) in bonds, notes, debentures, or other obligations of the United States of America or its agencies, or (3) in interest-bearing savings accounts, certificates of deposit, or time deposits, or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act, or (4) in certain short-term obligations of corporations organized in the United States limited to the terms set forth in Chapter 30, Act 235, Section 2 of the Illinois Compiled Statutes, or (5) in money market mutual funds registered under the Investment Company Act of 1940, provided that the portfolio of any such money market mutual fund is limited to obligations described in Chapter 30, Act 235, Section 2 of the Illinois Compiled Statutes. Investments may be made only in banks insured by the Federal Deposit Insurance Corporation (FDIC), savings and loan associations insured by the Federal Savings and Loan Insurance Corporation, or credit unions chartered under the laws of this state or the laws of the United States, provided the principal office of such credit union is located within the State of Illinois and the accounts are insured.

Investment balances, which consist of U.S. Government obligations, certificates of deposit with maturities exceeding one year, and money market funds held for investment purposes, are stated at cost, which approximates fair value. Assets of the different funds are commingled for investment purposes, where permitted, and interest earnings are recognized as revenue in the County General Fund.

Sangamon County, Illinois
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
For The Year Ended November 30, 2007

INVENTORIES AND PREPAID ITEMS

Inventories for all governmental funds are stated at cost determined on the first-in, first-out basis of accounting. Inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

CAPITAL ASSETS

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental columns in the government-wide financial statements. The capitalization threshold for infrastructure is \$5,000. Capital assets, other than infrastructure, are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10-60
Building improvements	10-45
Site improvements	3-50
Equipment	3-25
Infrastructure	5-40

LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize the face amount of debt issued as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

COMPENSATED ABSENCES

County employees are entitled to certain compensated absences based on their length of employment. Employees may accumulate a maximum of two years of vacation time. Accrued vacation is payable upon termination. Sick leave time is payable upon retirement in a ratio of five days for one day pay out. Also, after thirty-six days of employment, an employee may convert their sick leave time into vacation at a ratio of three days to one day.

FUND EQUITY

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

PROPERTY TAX CALENDAR

Sangamon County Supervisor of Assessments prepares the property tax assessment rolls with the property tax liens as of January 1 of each year. Levies are set by individual local governmental entities by the last Tuesday of December of each year.

The collection date for property tax receipts is thirty days after the property tax bills are mailed to property owners for the first installment, generally June 1 of each year. The second installment is generally due September 1 of each year.

Property taxes collected are distributed to each taxing district thirty days after receipt, generally July 31, August 31, and September 30. Any unpaid property tax levies are sold at a tax sale the last week of October and final distribution is made by the end of November of each year.

NOTE 1 – CASH AND INVESTMENTS

Separate bank accounts are not maintained for certain County funds; instead, the cash is maintained in a common account and certain temporary commingled investments are made from this common account. Control records are maintained for each fund's interest in the combined cash and investment balances, the total of which equals the combined amount of cash and investments.

Cash and Short-term Investments

At November 30, 2007, the carrying amount of the County's deposits (held in 12 separate financial institutions) was \$24,430,981. The bank balances were \$26,224,040. The deposits are categorized in accordance with risk factors created by governmental reporting standards.

- Category 1 – Insured by FDIC or collateralized with securities held by the County (or public trust) or by its agent in its name
- Category 2 – Uninsured but collateralized with securities held by the pledging financial institution's trust department or agent in the County's name
- Category 3 – Uninsured and uncollateralized, or collateralized with securities held by the pledging financial institution or by its trust department or agent but not in the County's name.

NOTE 8 – RETIREMENT PLAN – DEFINED BENEFIT PENSION PLAN

The County's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments, and death benefits to plan members and beneficiaries. IMRF acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly.

IMRF issues a financial report that includes financial statements and required supplementary information. The report may be obtained at www.imrf.org/pubs/pubs_homepage.htm or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The member rate is established by state statute. The County is required to contribute at an actuarially determined rate. The employer rate for calendar year 2007 was 9.66 % of payroll. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees. IMRF's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis (overfunded liability amortized on open basis). The amortization period at December 31, 2007 was 25 years.

NOTE 8 – RETIREMENT PLAN – DEFINED BENEFIT PENSION PLAN (CONTINUED)

For December 31, 2007, the County’s annual pension cost of \$2,458,826 was equal to the County’s required and actual contributions. The required contribution was determined as part of the December 31, 2004 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 7.50% investment rate of return (net of administrative expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10.0 % per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of IMRF assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period with a 15% corridor. The assumptions used for the 2007 actuarial valuation were based on the 2002-2004 experience study.

NOTE 10 – RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County is self-insured for medical and prescription benefits. The County has an excess loss insurance policy through Blue Cross Blue Shield with a policy period of December 1, 2006 to November 30, 2007. The specific/individual excess loss deductible for medical is \$100,000 per covered person with a maximum aggregate benefit of 125% of estimated claims. When a probable medical claim liability has been incurred at year end, and an amount of the loss can be reasonably estimated, the County records the estimated loss in its General Fund. The claim liability includes claims incurred and estimation for claims incurred but not reported (IBNR), based on historical data.

Rates are developed annually to fund the medical self-insurance program, both claims and administrative costs. The annual cost of this medical program is recorded as an operating cost in the County General Corporate Fund.

The County is also self-insured for certain general liability claims. Resources are available and reserves established as of November 30, 2007 to pay these estimated claims including those incurred but not reported.

For workers' compensation, the County is a member of the Illinois Public Risk Fund.

NOTE 12 – CONDUIT DEBT

The County has approved Economic and Industrial Development Bonds totaling \$45,583,000 for several projects and corporations. The purpose of these bond issues is to acquire and construct facilities for these entities' use in their operations. The individual projects and corporations pay the economic costs of the bond issues. The County has no responsibility for the debt except for the payments received on the underlying bond agreements.

NOTE 13 - CONTINGENCIES

As of November 30, 2007, the County is a party to a number of lawsuits arising in the normal course of operations. While the results of litigation cannot be predicted with certainty, management believes that the final outcome of such litigation will not have a materially adverse effect on the financial statements of the County.

As discussed on page 1, Sangamon County, Illinois has expended certain federal grant funds in a manner that may have violated certain of the restrictive provisions of the related grants. The possible outcome of these matters, which have been reported to appropriate officials, is uncertain at this time. Accordingly, no provision for any liability has been made in the financial statements for possible federal claims for refunds of those grant monies.

NOTE 14 – INVESTMENT IN CAPITAL ASSETS, NET OF RELATED DEBT

The investment in capital assets, net of related debt, at November 30, 2007 is as follows:
