## PROCEDURE/CONTACT INFORMATION

1. All demolition permits shall require proof of notification to the Illinois Environmental Protection Agency, regardless of the type of structure.
2. Written verification of the disconnection of utility services is required before Building/Zoning Department will accept a demo permit. This will include electric, gas, water and sanitary services including wells and septic systems. Water lines must be shut off at the road and verification from utility provided.
3. All electrical hookups must be removed back to the utility pole or exterior disconnecting means.
4. Sewer pipes must be capped and inspected by the appropriate municipal sewer inspector. Written verification from that inspector must be provided.
5. Septic systems if not being reused must be pumped out. Tanks must then be crushed and broken up, so no longer can store/hold water.
6. Abandoned wells must meet the requirement of the 1994 Illinois Water Well Construction Code section 920.120. A copy of this requirement and guidelines for sealing all types of wells is available from Building/Zoning Department.
7. All construction debris must be removed from the site before excavation inspection. No debris is to be buried on site. Clean brick and concrete from the foundation may be used as fill.

I certify that I am the owner or representative of the property which is the subject of this application, I hereby consent to the making of this application and the approval of the plans submitted herewith. I further consent to the inspection of this property in connection with this application as deemed necessary by the County agency. As the property owner or representative I assume the responsibility of locating any property lines, setback lines, easements, right of way, flood areas, etc., any construction within these areas may result in removal at the owner's or representative's expense. A Zoning Permit is valid for a period of six (6) months from date of approval and construction must commence and be worked on diligently thereafter or this permit may be canceled upon notification by the Zoning Administrator unless a written request is submitted to the Zoning Department within fourteen (14) days prior to expiration.
